## JOY ELECTRIC SHOWERS Joy 8.5kW / 9.5kW

## **Product Specification**

Product Codes & Finishes:

JOYT385 W (8.5Kw) 

White

JOYT385 MS (8.5Kv

Metallic Silver

Product Type: Construction: Supply: Inlet Connections: **Outlet Connections:** Working Pressures: Energy Rating:

JOYT395 W (9.5Kw)	JOYT395 MS (9.5Kv
Contemporary Plastic (ABS) Suitable for mains cold 15mm push fit, 5 directi G ½" Min 0.7bar, Max 10.0bar	ional options

## Additional Information

Instantaneous electric shower drawing water direct from the mains suppl ideal for installations without stored hot water and second bathrooms.

A

- Warm-up mode for comfortable showering, exclusively with the Joy showu. Set your temperature and the indicator light flashes until it is reached and ready for use
- Consistent showering temperature is provided. The temperature stabilising device compensates for changes in the water pressure caused by other household fittings.
- Safety devices include thermal cut out & pressure relief.
- 3 Power settings. (Cold, Warm/Eco, Hot) and a separate temperature control.
- On/Off is operated by Push Button, ensuring temperature setting remains unaffected after each use.
- LED readout displaying temperature settings between 1 and 12
- Safety warning letters in a display panel indicate low pressure and therefore the shower should be turned off until pressure resumes.
- The phased shut down feature ensures all hot water is flushed out of the shower after use prolonging the shower life. This ensures lime scale build up is kept to a minimum.
- Push fit swivel inlet elbow pipe connection, enabling plumbing from 5 different directions
- This shower is supplied with an adjustable riser kit and 3 mode rub-clean handset. The riser has a built in soap tray & integral hose retainer.
- Adjustable riser comes complete with adjustable top/bottom brackets so ideal to cover existing riser holes and tile joints.
- Incorporates a temperature control device (TCD) that activates when the temperature is too high & the water inside the heater gets too hot. The TCD will switch off the power to the heating elements and once the unit cools down to a safe temperature, will come on again.
- ThermoSafe™ Technology: Regulates the output water to minimise high/dangerous output temperatures for a safer showering experience.
